

Boca Grande Marina **Yacht/Cruise Club Package**

N 26° 44.832 W 82° 15.378

We Monitor VHF 16 & 14

Dock Master: 941-964-2100 --- Marina Store: 941-964-2550

ARRIVING AT BOCA GRANDE MARINA:

- Upon reaching our outside markers, please hail Boca Grande Marina on VHF channel 16. We will switch you down to our working channel VHF 14. If your members are currently monitoring another VHF channel, let us know and we will switch to your club's working channel.
- Boca Grande Marina is located approximately 1 ½ miles north of Boca Grande Pass and approximately 6 miles south of the Gasparilla Island Causeway Swing Bridge.
Our channel entrance is located at Intracoastal Waterway Marker R "2". Find Flashing Green "1" Day Marker and leave it to port. Follow the day markers through the channel and as you come to Flashing Green "7"-Proceed one straight boat length beyond before turning port. Favor the sea wall (Starboard) as you approach the marina, located just ahead.

CAUTION: SHOAL - DO NOT CUT FLASHING GREEN "7"

- Because of the layout of our marina and availability of staff, it is imperative that only a few boats enter the marina at the same time. Our Dock Master will call each boat into the marina and we respectfully request that all other boats wait outside our marina entrance in the ICW. Please be aware and courteous of normal Intracoastal Waterway and Day Marker Channel traffic while you are waiting.
- **Cruise Leader** – Please instruct your cruise members to have all six (6) of their dock lines out and tied to their boat before they come to their assigned slip. If every member has their lines out and prepared, we can bring your cruise club in quickly and efficiently and drastically cut down your waiting time for entry to the marina. Encourage your members to visit our web site located at <http://www.bocagrandemarina.net>.
- Once you have been contacted on the VHF and are given a dock assignment by the Dock Master, you may enter from the ICW to the marina and proceed to your slip where a Dock Hand will be available to help you secure your vessel.
